

## Required Order of Application Package

### Internal Use:

- 1) NHDOT Inter-Department Cover Memo
- 2) Public Highways Project-Specific Worksheet (*nhdes-w-06-091*)

### For Standard Dredge and Fill Major & Minor (Non-Tidal) Wetlands Permit Applications

- 3) Standard Dredge and Fill Wetlands Permit Application (*nhdes-w-06-012*)
- 4) Location Map -USGS 1:24,000 Color Topo Map
- 5) Attachment A: Minor and Major Projects (*nhdes-w-06-013*) [*Insert supplemental narrative as needed*]
- 6) Avoidance and Minimization Checklist (*nhdes-w-06-050*) OR Avoidance and Minimization Written Narrative (*nhdes-w-06-089*)
- 7) Natural Resource Agency Coordination Meeting Minutes
- 8) Mitigation Report/Coordination/Arm Calculators
- 9) Wetlands Functional Assessment Worksheet (*nhdes-w-06-049*)
- 10) USGS with watershed boundaries area for stream crossings (As applicable with projects involving stream crossings)
- 11) Applicable Stream Crossing Form (See Env-Wt 904.01, 904.02, 904.03, 904.04, 904.05, 904.06, 904.07, 904.08, 904.09, 904.10 to determine applicable form)
  - a. Stream Crossing Assessment Data & Summary Report (Env-Wt 903.04 & 903.05)
  - b. Stream Crossing Worksheet (*nhdes-w-06-071*) (*required for culvert replacements & rehabilitation*)
  - c. *Hydraulic Capacity Report (Env-Wt 903.04, 903.05, & 903.06)*
- 12) Env-Wt 514 Bank/Shoreline Stabilization Project- Specific Worksheet (*nhdes-w-06-057*) (*reference Natural Resource Agency Meeting Minutes for concurrence with hard scape determination: ie.) riprap at abutments and piers for scour protection and bank stabilization*)
- 13) Restoration/Enhancement Activities Project- Specific Worksheet (*nhdes-w-06-068*) (As applicable)
- 14) NHB Results
- 15) NHB/F&G correspondence
- 16) USF&WS IPaC Results
- 17) USF&WS correspondence
- 18) NHDHR Effect Memo/NHDOT Cultural Resource Review
- 19) ACOE – Appendix B / Supplemental Narrative

- 20) ACOE Wetland Determination Field Data Sheets (As applicable; if palustrine wetlands identified within project area and permanently impacting) (Env-Wt 406)
- 21) Color Photos with captions
- 22) Construction Sequence Narrative
- 23) Wetland Impact Plans
- 24) Erosion Control Plans

\*At times there may be additional attachments/components that are not included on this list. These additional components should be inserted behind any listed attachment if there is a direct correlation. If there is no clear correlation to any of the items in the current order place the attachment after the construction sequence attachment along with the various “as applicable” forms and before the Wetland Impact Plans.
